# Xperia Transfer Mobile - FAQ

**Q:** Which Xperia™ products are supported (migration to) by Xperia™ Transfer Mobile?

**A:** Any Xperia smartphone with Android OS 4.3 .

**Q:** Where can I find Xperia™ Transfer Mobile?

**A:** Xperia Transfer Mobile is currently only downloadable from Google Play on the following link:

<http://play.google.com/store/apps/details?id=com.sonymobile.xperiatransfermobile>

**Q:** Is the Xperia Transfer cable a special product that can only be used with Xperia Transfer Mobile?

**A:** No, the Xperia Transfer cable is a standard USB host cable and can be used to fulfill other use-cases/connect accessories together with Xperia.

**Q:** Will Xperia Transfer Mobile transfer DRM protected content?

**A:** Transfer of DRM content is not supported. iTunes removed DRM from their audio content in 2008/2009.

**Q:** Do I need to login somewhere in order to use Xperia™ Transfer Mobile?

**A:** Internet connection (Mobile/Wi-Fi) and access to Google Play is needed on your old(Android)/new device in order to download the application from Google Play. For iPhone migration, internet access is also needed for the application matching service.

**Q:** Is there an Xperia Transfer Mobile section on your homepage?

**A:** Yes a complete Xperia Transfer site can be found at - [www.sonymobile.com/xperiatransfer/](http://www.sonymobile.com/xperiatransfer/)

**SONY**

# Xperia Transfer Mobile - FAQ

**Q:** Are there any restrictions when it comes to battery charge levels?

**A:** When transferring over USB, both devices have to be charged above 50%.

**Q:** Can I migrate my iPhone applications to Sony Xperia?

**A:** Yes, Xperia Transfer Mobile supports application matching service which was introduced with Xperia Transfer desktop.

**Q:** What about paid for applications?

**A:** Many paid iOS apps are free or have free corresponding apps on Google Play, Xperia Transfer Mobile will only suggest free Google Play applications in this release.

**Q:** Can I migrate iPad to Xperia Tablet via Xperia Transfer Mobile?

**A:** Not in current version, plans exist to add support as a next step.

**Q:** I have lots of applications on my old Android phone, will these migrate to Xperia?

**A:** Google Play will help you to retrieve any compatible applications to your new Xperia. Just make sure that your old Android phone is backed up with Google. If you don't want to backup, you can always visit <http://play.google.com> on your computer and login with the same account as on your Xperia, there you can select and install any compatible applications to your new Xperia.
